

CPAS Goes Mobile

Toronto, ON June 14, 2013 – CPAS Systems Releases CPAS Mobile.

Retirement fund administrators are increasingly seeking innovative approaches to connect with their plan participants and drive greater engagement. CPAS has answered the call with CPAS Mobile!

CPAS Mobile allows plan participants to access and manage their retirement fund information from their smartphone or tablet. Participants have secure, real-time, self-service access to the CPAS v5 recordkeeping platform to view their personal information and fund account balances, change their investment allocations, and more.

“This latest enhancement to CPAS v5 gives plan sponsors and retirement administrators another way to promote their plans and broaden their services to plan members. With CPAS Mobile participants now have their retirement information at their fingertips,” said David Rive, CPAS’ Chairman and CEO.

CPAS Mobile is fully integrated with the latest CPAS v5 recordkeeping platform, and is compatible with popular mobile devices and platforms including iOS, Android and BlackberryOS.

About CPAS Systems Inc.

Founded in 1985, CPAS Systems Inc. is an ISO 9001:2008 registered global supplier of web-based pension administration software solutions. Designed for plan administrators, and member and employer self-service, CPAS v5 product is multi-lingual, multi-jurisdictional and multi-currency. It offers an integrated solution for administrators of all forms of defined benefit and defined contribution pension plans, and life and health benefits.

CPAS software has been the solution of choice for over 150 organizations throughout the U.S.A., Canada, the Caribbean, Europe, China and Africa. CPAS software administers more than 2,500,000 members worldwide. CPAS v5’s powerful Enterprise Tools development environment allows clients to be self-supporting, to control ongoing administrative costs.
